From New York. NEW York, July 28 -The Herald's Washington special says: Yesterday a train from Warrenton to Alexandria, conveying about 300 troops, was fired into by guerrillas when within two miles of Manassas. No damage done. The troops scoured the woods in the vicinity, but were unable to find their

From Washington.

Washington, July 28.-Information received to-day shows Lee's army, under Longstreet, Hill and Ewell, passed through Chester Gap Thursday and Friday, and are now at and south of Culpep

Buford's cavalry opposed them, but had to fall back, but hung on their rear, capturing prisoners and cattle. Terre Haute through ...... 5:00 P M. It is generally thought Lee was making all possible speed to Richmond, but Buford chinks the Rebels intend making a stand on the south

side of the Rappahannock. Rebel prisoners say our cavalry has done more to defeat Lee's plans than any other arm. Also, that a great deal of despondency prevails in the South and in the army in consequence of their recent defeats and the failure of Lee's plans; while the defection of Joe Johnston and his refusal to obey the orders of Jeff. Davis will necessitate a reconstruction of the Army of the Southwest.

From the Army of the Potomac. HEADQUARTERS ARMY POTOMAC, July 25-The Times has the following:

The positions of the Rebel army are about as follows: On Friday morning at 6 o'clock the advance of Hill's and Longstreet's corps reached Culpepper. The columns were well closed up and their entire corps must be concentrated there before this time. Of this retrograde movement there can be no question.

Ewell's corps, it is understood here, still occupy the Sheamdonh Valley where it is guarding fords on the Shenandoah in the rear of the Rebel army. This fact is supposed to explain the recent alarm about alleged movements indicating that Lee was not retreating and was preparing to return to Maryland.

DR. JOHN BULL'S

COMPOUND CEDRON BITTERS

The Latest and Most Important Discovery of the Nineteenth Century.

TO MAN'S NAME IS MORE INTIMATELY CONnected with the history of the Materia Medica of the United States, or more favorably known as a pioneer in medical discovery, than that of JOHN BULL, of Louisville Ky. His inimitable preparation of Sarsaparilla has long stood at the head of the various compounds of that valuable drug. His compound Pectoral of Wild Cherry has become a household word throughout the West and South; and his Worm Lozenges, in less than a year after as the continent of North America. But the crowning glory or his life remains to be attained in his latest discovery, or rather combination, for he does not claim to have been the discoverer of CEDRON, which is the basis of the Bitters now offered to the public. That honor belongs to the native inhabitants of Central America, to whom i's virtues have been known for more than two hundred years. Armed with it, the Indian bids defiance to the most deadly malaria, and handles without fear the most venemous serpents. It is a belief with them that while there is breath left in the body the Cedron is potent to cure, no matter what the disease may be. While Dr. Bull is not prepared to indorse this extravagant pretension, he is nevertheless satisfied from a thorough examination of the evidence relating to its virtues, that, as a remedy and preventive for all diseases arising from exposure either to changes of weather and climate or to the miasmatic influences, it stands without a rival, and justly deserves the reputation it has so long enjoyed

n Central America and the West Indies. In IN WHEN BERNIA and its attendant train of symptoms, it acts more like a charm than a medicine. There is nothing in the whole range of the Materia Medica that can for a moment bear

a comparison with it in this disease. A full account of this wonderful plant may be found in the eleventh edition of the U. S. Dispensatory, pages 1387 A series of experiments, in which Dr. Bull has been for years engaged, has just been brought to a successful termination, and he is now enabled to offer to the public a combinatian of Cedron with other improved tonics, the whole preserved in the best quality of copper-distilled Bourbon whisky, which he is confident has no equal in

He might furnish a volume of certificates, but the public have long since learned to estimate such things at their true value. The safest plan is for every one to test for himself the virtues of a new medicine. Give the

CEDRON BITTERS

one trial, and you will never use any others. It is not necessary to publish a long list of diseases for

which the Cedron Bitters are a specific. In all diseases of the STOMACH, BOWELS, KIDNEYS In all affections of the BRAIN depending upon derangement of the Sioniach or Bowels; in GOUT, BHRUMATISM and NEURALGIA; And in FEVER AND AGUE; It is destined to supersede all other remedies. It not nly cures all these diseases but it prevents them. A wine glass full of the Bitters taken an hopr before

each meal will obviate the ill effects of the most un healthy climate and screen the person taking it against disease under the most trying exposure.
